PROFILE

Motivated FullStack Developer and BCA graduate with hands-on experience in building responsive web applications using modern technologies. Strong understanding of front-end and back-end development, database management, and RESTful APIs. Passionate about continuous learning, writing clean code, and developing efficient, scalable solutions. A proactive team player with a growth mindset and strong analytical skills.

EDUCATION

Bachelor of Computer Applications University Institute of Technology-	2022 – 2025 Malayinkeezhu
PlusTwo Computer science S N H S S	Chithara

SKILLS

Web Development

- HTML
- CSS
- JavaScript
- TypeScript
- React.js
- Tailwind CSS
- Bootstrap

Database Management

- MongoDB

Tools & Platforms

- Git
- GitHub
- VS Code
- Postman
- Cursor

Core Concepts

- REST API Development
- JWT Authentication
- MVC Architecture
- Database Optimization
- API Integration
- Responsive Web Design
- Version Control

AI Tools & Development Assistance

Leveraged AI-powered tools including ChatGPT, GitHub Copilot, Grok ,Gemini and ClaudeAi etc. for code generation, debugging, API structuring, documentation writing, and productivity enhancement during full-stack application development.

PROFESSIONAL EXPERIENCE

INTERNSHIP FULL STACK DEVELOPER(MERN)	2024 – Present
<ul style="list-style-type: none">• Developed full-stack web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js).• Created secure and efficient RESTful APIs tested using Postman.• Built responsive UI components with React, Tailwind CSS, and TypeScript.	

- Implemented CRUD operations and optimized MongoDB database schemas.
- Utilized Git and GitHub for version control and collaboration.

PROJECTS

MPact

E-Commerce Web Application

Developed a full-stack e-commerce web application with modern UI/UX design, featuring attractive parallax scrolling effects and smooth animations. Implemented product listing, cart management, user authentication, and secure checkout functionality using the MERN stack. Focused on responsive design, performance optimization, and user-friendly navigation.

Restaurant Billing System

helps restaurants manage daily operations

Designed and implemented a web-based restaurant billing system to streamline order management, automate invoice generation, and monitor daily sales performance. Improved operational efficiency through optimized transaction processing and structured database management.

DENSTACK

Hospital Management System

Developed a web-based hospital management system to streamline patient records, appointment scheduling, hospital operations, and sub-clinic management. Implemented sales tracking and comprehensive reporting modules to improve operational efficiency through secure data handling and structured database design.

Static Parallax Website

Designed and developed a visually engaging static website featuring parallax scrolling effects and smooth animations. Focused on responsive layout, modern UI design, and optimized performance using HTML, CSS, and JavaScript.
